Stunning Ocean View

The solid timber frame is an architectural masterpiece. The double height ceiling of the open plan living space, which floods the home with air and light, is just one of the many features that turns this Colonial Style building from a house into a magnificent home. With breathtaking ocean views, dazzling free-form pool, separate Studio, parents' retreat, games room, ample storage and an office to die for, there is something here for everyone. Constructed to the highest standard using top quality materials this is, without doubt, one of the most eye-catching, impressive residences on the island. The vendor is highly motivated and therefore agreed to accept Market Value. A private inspection can be arranged by contacting the agent.
